"Based on my professional experience and qualifications I find these menus provide a nutritious and well balanced diet for individuals concerned with weight control and overall health. An added benefit to these menus is that they are tailored to individual diet preferences. The caloric needs are customized for the amount and type of exercise athletes or every day people are performing and also takes into account body fat percent, lifestyle and activity in their profession."

Diane D. Spindler Ph.D., N.D.

"As the Registered Dietitian, I have completed a thorough nutritional assessment of these menu templates. I have evaluated all caloric levels, macronutrients and micronutrients available. As a registered dietitian I deem and approve these templates to be consistent with guidelines that result in safe and healthy weight loss without dangerous supplements."

Kimberly A. Tessmer, R.D., L.D.
